

Congresswoman Kathy Dahlkemper visits TREC

Shown from left: Char Myers, TREC President, Congresswoman Kathy Dahlkemper, and Board Members Linda Wilkinson and Kim Coughlin

On Wednesday, September 2nd, TREC had an important visit from Congresswoman Kathy Dahlkemper. The Congresswoman was able to see firsthand how therapeutic riding builds upon the abilities of those people with disabilities participating in the program. From our level one riders, to our work with at risk teens, our programs help those with physical, cognitive, emotional and social disabilities to increase their abilities in spite of their disabilities.

The Congresswoman was not only impressed, but also expressed how important it is for programs like TREC to continue providing service to the residents of Northwest Pennsylvania. We thank the Congresswoman for taking the time to visit us and have her own TREC experience.
